

1 36073/GSL/P389

SIMPLIFIED DEVICE TO QUICKLY COOK FOOD

5 ABSTRACT OF THE DISCLOSURE

10 A device to bake farinaceous foods such as cakes, cookies,  
breads, pies, and pizzas more rapidly and flavorfully, with  
retention of desire food textures and reduced risk of burning by  
the use of intermittent application of radiant energy. The  
preferred embodiment rotates farinaceous ingredients in front of  
a radiant heat source. The preferred embodiment may control oven  
15 temperatures by regulating the amount of outside cool air fan  
forced into the oven cavity.
